Profile

Aspiring Junior Software Developer with a strong foundation in full-stack development, certified by CodeYourFuture Bootcamp, FNB App Academy, and freeCodeCamp. Skilled in JavaScript, Python, SQL, Node, Git/GitHub, and Responsive Web Design, with hands-on experience in building functional web applications and collaborating using modern workflows like GitHub, Kanban, and Agile practices.

Background in Business Administration (BBA, TSIBA) provides additional strengths in finance, marketing, and user-centric design. Passionate about problem-solving, teamwork, and building impactful software. Seeking an internship or entry-level developer role to grow technical expertise and contribute to a development team.

Professional work Experience

August 2022 - December 2022

Building Industry Bargaining Council - milnerton, ZA

Finance Intern

- Maintained accurate, up-to-date financial spreadsheets and databases for reliable reference.
- Supported organizational account management duties under direct supervision. Analyzed financial data and presented meaningful insights to senior management. Updated bank statements and cashbooks daily
- Recoded Member payments, payment failures, speed point payments and did Ad-hoc Filing

June 2019 - January 2020

Engen Marconi Island Convenience Centre - milnerton, ZA

Petrol Attendant

- Provided professional services and support in a dynamic work environment.
- I was the petrol the attendant, the cashier and I balanced the cashbook when I was working the night shift
- Demonstrated creativity and resourcefulness through the development of innovative solutions.
- Used critical thinking to break down problems, evaluate solutions and make decisions.
- Assisted with day-to-day operations, working efficiently and productively with all team members.
